Phase 2 of the Tangerine Road Corridor improvements will be constructed in two phases in order to address and accommodate planned development in the area.

The western two-and-a-half miles (Phase 2A), from I-10 through Tangerine Business Loop is slated to be constructed first. Start date is estimated for mid-2023. Meanwhile, Phase 2B is in design.

The Regional Transportation Authority, a political subdivision of the state and independently governed, has invested more than \$1.4 billion in transportation projects and services to improve mobility, safety, economic vitality and quality of life in the region. The RTA collects a half-cent excise (sales) tax from its special taxing district within Pima County to fund its 20-year regional transportation plan. The plan and tax were approved by voters in May 2006. The Tangerine Road project is part of the RTA plan and is managed by the Town of Marana. For more information, visit RTAmobility.com.

Design elements for Phase 2A include:

Widening

Widening of Tangerine Road to a four-lane desert parkway with paved shoulders and a curbed median.

Drainage

Providing an all-weather roadway that conveys 100-year storm events under the roadway through a combination of channels and culverts.

Multi-Use-Path

Addition of a 12-foot-wide multi-use-path along the north side of the roadway.

Signals

At Adonis Road, a signalized intersection and improved access will accommodate future development.

Access

A frontage road south of Tangerine Road, providing improved access to Marana Tech Center's current and future businesses.

Connectivity

Widening for capacity improvements and pedestrian/bicycle connectivity at the I-10/ Tangerine Road Traffic Interchange (TI).
